Many patients have told us that there is a 2-3 month wait before they could see another urologist in Santa Fe. We offer new patient appointments within 1 week or less. Do you know what 2-3 months means if you are worried you have cancer? Do you know what it means to wait if you are pain from a kidney stone? We are now in Santa Fe providing services and the choice of surgical facilities. Many of our patients have chosen to have their surgeries at the Los Alamos Medical Center and have had a great hospital experience.” said Pavel Mourachov.
